

Kindergarten Homework Contract

Student name: _____

Each week, your student will receive a homework packet. The packet includes four different sections. These sections are described in detail below. The packets are placed in your kiddos take home folder on Fridays and should be returned the following Friday. This allows flexibility for families throughout the week as to when the homework is completed.

1 - Raz Kids

Please have your child read on Raz-Kids 4 times each week for at least 10 minutes. Raz Kids will be checked weekly. Please monitor your child to make sure they are reading on the program and not playing on the reward section. It is very important to monitor your child to ensure they are using it correctly.

2 - Sight Words

Attached to each homework packet, you will find sight words that need to be reviewed for the week. Have your child practice writing their sight words each using a pencil, a crayon, and a marker. Please cut out the flashcards to practice at home. These cards should be kept at home and not in their take home folder. Your child should be practicing their sight words for 5 minutes at least 4 times a week. Please note your child will not move on to the next list until they can read all of their assigned sight words without sounding them out.

3 - ABC / Phonics Practice

There will be two papers attached reviewing the letters/phonics that is taught during the week. All writing should be completed in pencil. All coloring should be completed with crayon. No markers please.

4 - Math Practice

There will be two papers attached reviewing the math concept that is taught during the week. All writing should be completed with pencil and coloring should be completed with crayons. No markers please.

Yes, we have read the homework policies and understand the importance of building consistent homework routines. We understand that homework packets come home on Friday and are due back the following Friday. We agree to check our child's homework for best effort as well as help our child understand all directions.
